November 13th, 2020

Logistics

What is expected for assignments due before Nov 21
- *Full Design*
    - Conceptual design
        - **did we do this already?**
    - Wireframes
        - **How much more specific than this?**
- *Proof of Concept*
    - Prove that we can deploy and integrate our code together
    - Implement **one** or more nontrivial concepts
        - **What is nontrivial?**

Project-Specific

- Tags/Badges
    - Auto-generated for businesses [time-based, "streaks"?]
    -
- Ideas to incentivize [promotions] + fact check reviews
    - Upvotes and downvotes on reviews? [Report / Affirm Buttons]
        - Users can report posts by others
        - If a post reaches a certain "report threshold", post will be flagged for inaccuracy
    - One review per person per business? [avoids spam] *or some other kind of time limit*
- Reviews
    - Safety Rating? Overall Experience?
        - + optional comment
- Business authentication
    - Business IDs? Databases to check for business verification
